Mitel MiVoice Office 250

Today's hybrid communication platform

Key Features

- Unified Voice Messaging with email synchronization
- Voice conferencing
- Desktop phone twinning
- Enhanced audio conferencing
- Four built-in analog trunk ports
- Four built-in analog station ports

In today's business environment, communications with customers, partners, and suppliers is critical. Mitel® MiVoice Office 250 simplifies communications, enhancing customer service, employee productivity, and collaboration while reducing overall telephony costs.

MiVoice Office 250 is built on a scalable digital – IP platform that combines the best of both IP and traditional TDM switching architectures. It’s designed to scale and protects your investment with add-on modules and processors – all in a form factor that works for shelf-top, rack-mount, and wall-mount scenarios. Additionally, the communications platform delivers IP networking out of the box with full feature transparency.

Simplifying Communications

MiVoice Office 250 offers businesses a complete suite of out-of-the-box business productivity applications, which include Unified Voice Messaging with Automated Attendant, Meet-Me Conferencing, Automatic Call Distribution, Hot Desking, Mobile Twinning, Mobile Hand Off, Teleworking, and Reporting.
• Four built-in analog trunk ports*
• Four built in analog station ports
• Four module bays for internal expansion of TDM-based device capacity that can be used in any combination
  – T-1/E-1/PRI Module can be used to connect to the telephone company, to other phone systems, or to other MiVoice Office communication platforms
  – Loop start module provides four analog connections to the phone company*
  – Analog phone module provides four analog phone (ONS) connections
  – Digital phone module provides 16 digital phone connections
• Built-in paging and music on hold ports
• "Door Relay" capability controllable by feature code or key from designated phones
• Support for the optional Digital Expansion Interface (DEI) for digital and analog phone expansion beyond the core platform capacity
• Built-in Dynamic Host Configuration Protocol (DHCP) server functions for Mitel IP phone deployment and other business needs
