Mitel MiVoice 5340e IP Phone

Customization and superior usability in the next generation of IP phones

Key Features

- 48 self-labeling, programmable keys
- Streamline communications between people and organizations
- Wideband Audio Support
- One-touch access to embedded applications
- Hands-free speakerphone operation available

The Mitel® MiVoice 5340e IP Phone delivers easy-to-use, one-touch access to many phone features and applications in an exciting next generation desktop device. It can be customized to a specific user needs, or used by any general employee in the business.

A full-feature enterprise-class applications phone, the MiVoice 5340e IP Phone provides a large backlit graphics display with 48 programmable multifunction self-labeling keys, six intuitive call state sensitive softkeys, and superior sound quality with wideband audio – all of which provide users with real-time access to applications and services.

With its built-in HTML toolkit, applications can be developed to run on the MiVoice 5340e IP Phone without an external server – providing cost-effective, intuitive customization for unique requirements such as launching an application, or displaying specific information integral to the user or business.

The MiVoice 5340e IP Phone is ideal for enterprise executives and managers, hot desk users, teleworkers, and contact center agents and supervisors.

Ease of Use and Enhanced User Value

The MiVoice 5340e IP Phone provides 48 self-labeling, programmable keys, to suit any needs of any user. The backlit display and context-sensitive softkeys as well as intuitive navigation keys add to the usability, proving the MiVoice 5340e IP Phone is the “one size fits all” desktop phone.

Unified Communications Support

When used with Mitel Unified Communicator Express or Mitel MiCollab Client (formerly Mitel Unified Communicator® Advanced) applications, the MiVoice 5340e IP Phone becomes a powerful communications tool that helps customers streamline communications between people and organizations. This leads to improved productivity, enhanced customer service, reduced costs, and ultimately improved business process integration.

What Do You Want Your Phone to Do?

Whatever your requirements, customization is easy and cost effective with the Mitel HTML Desktop Toolkit. You can launch an application, create a screen saver, or display database information – all accomplished easily and quickly to address the needs of unique customers.
Superior Acoustics with Wideband Audio

The MiVoice 5300 Series IP Phones have been designed to provide superior sound quality. Wideband Audio is a standard feature on the MiVoice 5340e IP Phone and it comes equipped with a wideband audio handset (7 kHz), as well as full duplex hands-free, making it acoustically superior to many IP phones available today.

Peripherals Support

Customize the MiVoice 5340e IP Phone to specific user requirements by selecting the right accessory – there’s no need to purchase various types of phones. The MiVoice 5340e IP Phone can be easily enhanced with any of the following phone accessories:

- Mitel Line Interface Module, which allows analog connectivity for emergency dialing
- Mitel 5310 IP Conference Unit, which provides instant superior quality voice conferencing
- Mitel Cordless (DECT) Accessories Module, which supports the Cordless (DECT) Handset and Cordless (DECT) Headset
- Mitel Bluetooth® Module which supports third-party Bluetooth headsets and the Mitel Bluetooth Handset
- 12- and 48-Button Mitel Programmable Key Modules, which easily add up to 96 additional programmable keys to the phone
- Mitel MiVoice 5610 IP DECT Stand and Handset, which is a unique accessory that offers a low-cost wireless solution for personal area mobility on IP Phones
