

# Application Integration Lists For Zultys Flex and Zultys Flex Plus

Zultys integrates with over 100 leading customer relationship management (CRM) systems to streamline business operations and elevate the customer experience. Our powerful API integrations enable:

- **Screenpops** – Shows the contact of phone number in the CRM or webpage.
- **Caller Recognition Notification Popups** – Displays a popup on matching contact without opening the CRM.
- **Automatic Contact Replication (Only Available with Zultys Flex Plus)** – Contacts are cached in the cloud for quick response and lookups can be performed when the CRM is offline.

By seamlessly connecting your Unified Communications platform with these business applications, you can unlock a wealth of data-driven insights, automate tedious tasks, and empower your team to deliver exceptional service.

Zultys Flex Plus supports more applications and offers additional customization, available with a Zultys Flex license to meet specific business needs.

## Zultys Flex Plus Integration List as of April 2025

Flex Plus is designed to grow with your business. It supports scalability, making it easy to adapt and integrate new CRM systems as your needs evolve. If a particular CRM isn't currently supported, we'll do our best to add it! This typically takes 30–60 days when credentials are provided. Flex Plus also offers customizable screenpop layouts and CRM credential management.
